

Neuromins™ / DHA liquid

Neuromins™ Introduced 1997
DHA liquid Introduced 2010

What Is It?

Neuromins™ and DHA liquid contain vegetable sourced docosahexaenoic acid (DHA), an essential omega-3 fatty acid. While most DHA is obtained from fish oils, vegetable derived DHA is extracted from microalgae, the fish's original food source, under tightly controlled food manufacturing conditions.*

Uses For Neuromins™

Healthy Neural And Visual Development: Docosahexaenoic acid (DHA), an omega-3 long chain polyunsaturated fatty acid, is the building block of brain tissue. It is the primary structural fatty acid in the gray matter of the brain and retina of the eye. DHA is an essential nutrient for eye development and for mental and visual function. Humans obtain DHA from their diets, initially through the placenta and from breast milk. DHA is commonly added to infant formula in Japan and Europe. Clinical trials of supplementation with Neuromins™ in healthy vegetarians have shown an increase in serum DHA and EPA levels.*

What Is The Source?

DHA in Neuromins™ and DHA liquid is extracted from microalgae. Vitamin E and mixed tocopherols are derived from purified soybean oil. Ascorbyl palmitate is derived from corn dextrose fermentation and palm oil. The proprietary antioxidant blend (DHA liquid) is a combination of vitamin E (purified soybean oil) and ascorbyl palmitate (corn dextrose fermentation and palm oil). Vegetarian gelatin capsules are derived from corn starch.

Recommendations

Pure Encapsulations recommends 200-300 mg DHA daily, with a meal.

Are There Any Potential Side Effects Or Precautions?

At this time, there are no known side effects or precautions.

Are There Any Potential Drug Interactions?

At this time, there are no known adverse reactions when taken in conjunction with medications.

Neuromins™ 200 mg

each softgel capsule contains v 10 sg	
calories	5
calories from fat.....	5
total fat	0.5 g
DHA (docosahexaenoic acid)	200 mg
other ingredients: algal oil, modified corn starch, glycerin, high oleic sunflower oil, water, carrageenan, sorbitol, ascorbyl palmitate and tocopherols (antioxidants), natural flavor, sunflower lecithin, beta-carotene and caramel (coloring)	

This high potency formula is recommended for pregnant and lactating women.

1 capsule daily, with a meal.
